

## **1 KINGS WEEK ONE – September 2, 2021**

*Background* – Like the Books of Samuel, the Books of Kings are divided into two parts. We will be dealing with 1 Kings which covers the last days of King David through the Division of the United Kingdom of Israel and ending with the work and ministry of the prophet Elijah.

*Date, Theology, and Authorship* – Like the books of Samuel, the books of Kings are considered “Deuteronomic History” in English Bibles, but in Jewish traditions it fits under prophetic works. Either way, the books of Kings continue to warn readers of what happens when a nation fails to be faithful to Yahweh. The book starts out with some hope that Solomon may be able to continue King David’s legacy of keeping Israel united, but it doesn’t take long to see that the nation is doomed to be divided. Most of the rest of the books chronicle the exploits of the various kings of Judah and Israel (some good, some bad) along with prophetic warnings about where their division will lead.

The books of Kings was compiled around 550 BCE during the Babylonian Exile. The books have some serious chronological discrepancies with other books that chronicle the history of Israel such as 1 and 2 Chronicles and other prophetic works.
